Glico Care & Share

“Enhance people’s health through food” and “Contribute to society through business” are the determination and desire of the founder of Glico Company Limited Group. The company continues operating based on its unaltered objective, despite the significant changes in the times. The company is dedicated to providing customers with products that promote both their physical and emotional well-being. We are additionally keen to keep devoting ourselves to both business and societal activities.

Thai Glico Company Limited has realized the importance of education and improving the quality of life of people with disabilities in order for them to live comfortably in society. On November 7th, the company organized an event whereby employees visits the market and sell products at over ten locations throughout the Pattaya Special Administrative Region. Aims of the program are for our employees to have real experience in the market, connect with the consumer and raise the fund to contribute to the society. Outcome of the program is that Thai Glico double the amount raised from product sales that day which

make total amount of THB140,000. The fund is used to support Redemptorist Technology College, Pattaya to purchase IT equipment to use in developing teaching, learning and student rehabilitation.

The company would like to express our gratitude to the managers and owners of each of the ten sites for making it possible for us to plan this event.
